## PICTURES OF BUILDING CONSTRUCTION PROGRESS

Site clearance

Site hand-over to contractors & consultants

Building setting out

Excavation and earthworks

Consultants/contractors supervising excavation and earthworks

Levelling in progress

Geophysical survey and drilling of water borehole

Anti-termite treatment to walls and bottom of excavation

Blinding in progress 1

Blinding in progress 2

Reinforcement for bases and columns

Reinforcement for bases and columns

Setting of Column and Base Reinforcement

Concrete Base Casted and Short Column Standing

Site visit from the Centre Director and Project monitoring team

Formwork and reinforcement for reinforced strip foundation

Formwork, reinforcement and concrete for reinforced Strip foundation

Formwork, reinforcement and concrete for Reinforced Strip foundation

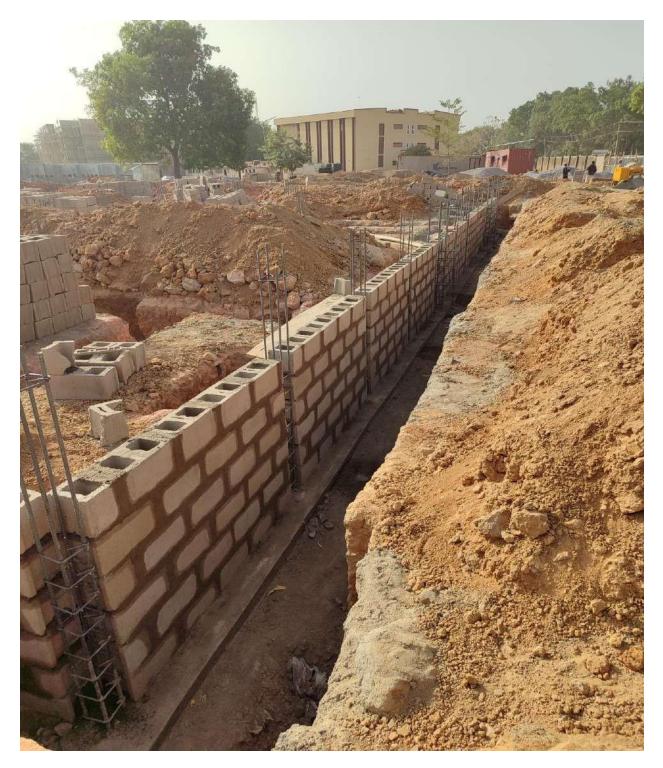

Reinforced Strip foundation completed

Block work in foundation

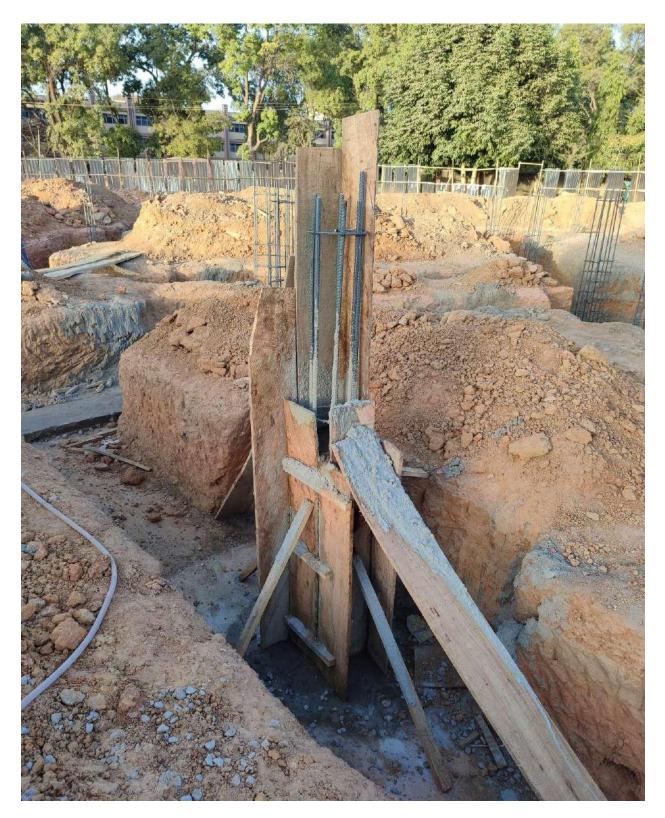

Particle board for expansion joint

Block work in foundation

Formwork for columns

Column Casting

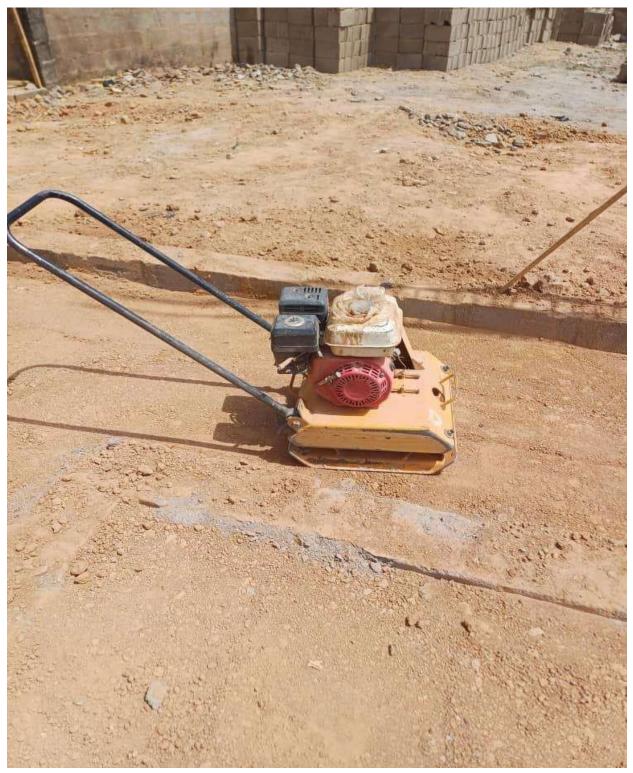

Backfilling

Watering after Backfilling for optimum soil compaction

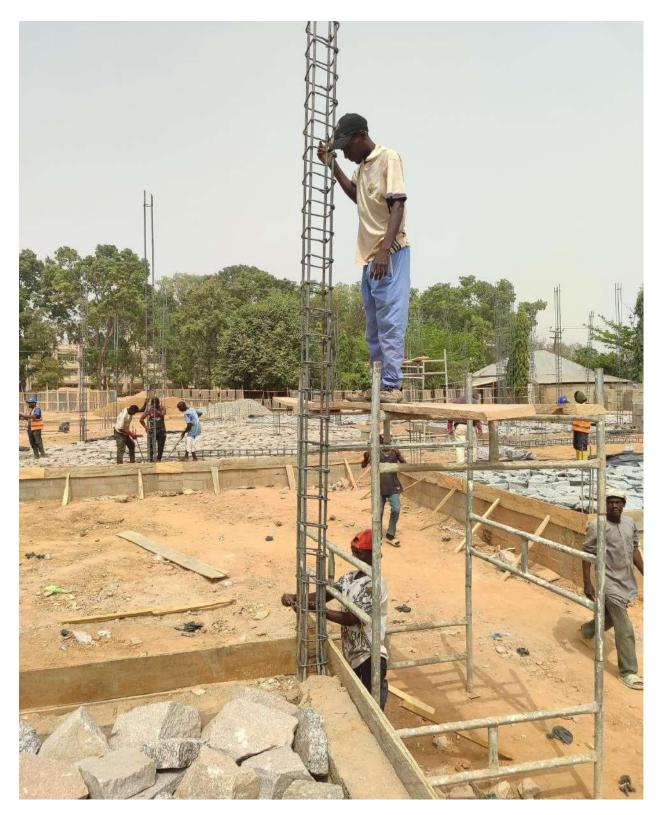

Ponding after Backfilling

Compaction on going

Erection of Column reinforcement

Erection of Column reinforcement

Curing of cubes for testing

Laying of Damp Proof Membrane and Hardcore

Laying of Damp Proof Membrane and Hardcore

DPM, Hardcore and Formwork placed ready for wire mesh and concrete work

Casting of over site concrete in DPC

Casting of Concrete for DPC

Completed section of Dam proof course

Completed Dam proof course

Curing of Completed section of Damp proof course

completed Damp Proof course

kickers for columns

kickers for columns

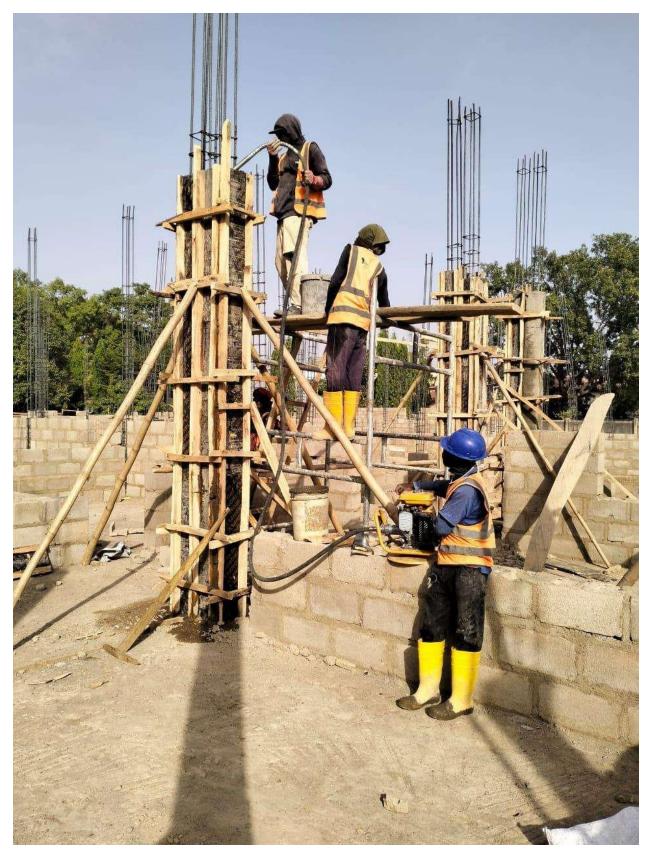

Form work for Column

Form work for Column

Pouring and compaction of concrete in Column

Pouring and compaction of concrete in Column

Casting of test cubes from Concrete for columns

Columns after removal of formwork

Columns after removal of formwork
